Drawings

The drawings were received on November 11, 2003. These drawings are acceptable.

Information Disclosure Statement

The information disclosure statements (IDS) submitted on 6/12/03 and 11/18/03 were filed after the mailing date of the Office Action on 9/3/03. Accordingly, the information disclosure statements are being considered by the examiner.

Allowable Subject Matter

Claims 1-44 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 42-44 is the inclusion therein of the limitation of "removing a part of at least one of the plurality of carbon fibers by applying a voltage between the first and second electrodes under depressurized condition" in combination with the other claim limitations. This limitation was neither disclosed nor taught by the cited prior art, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2831

Note that the primary reasons for the indication of the allowability of claims 1-40 were given in the Office Action filed September 3, 2003. New claim 41 depends from claim 5.
